

## Rail Mount Armboard

CFI's "Rail Mount" Carbon Fiber Armboard has been custom engineered to achieve a high degree of strength, durability and radiolucency. Designed to fit any standard accessory rail, the armboard can also be combined with an optional accessory rail mounting unit, allowing for attachment to tables without a built in rail. The unique "Quick Release" Swivel Unit allows for easy application & removal, while providing 180° of lateral adjustment.
